mauriciopersonalwebpage.vercel.app • French and Ecuadorian nationality

EDUCATION

B.Sc. Computer Science and Artificial Intelligence. Minor in Entrepreneurship
McGill University

09/2022 – 12/2026
Montreal, Canada

High School Diploma Magna Cum Laude; GPA 93.34/100
Colegio Menor San Francisco de Quito

06/2022
Quito, Ecuador

PROFESSIONAL EXPERIENCE

IT Solutions Intern

Ascend Hotel Collection Member, San Jose de Puenbo

05/2025 – 08/2025
Quito, Ecuador

- Integrated and deployed **Asksuite chatbot and AI reservation assistant** to create **24/7 guest support** serving **2,500+ guest interactions** across web, Facebook, and Instagram.
- Boosted **client engagement** through the rise of **643+** quotations per month and more than **25,000+ guest** messages across channels with **90% accuracy**. **Converted 20% of chatbot interactions** into sales opportunities.
- Deployed **NFC-enabled guest cards** to **78 rooms** providing instant **one-tap access** to hotel amenities for over **2,500 guests**.

Research Analyst

Nan Magazine (Freelance)

04/2025 – 12/2025
Ecuador

- Researched and curated **200+** Ecuadorian tourist destinations for a government-backed **interactive digital map**, funded by the **Inter-American Development Bank (IDB)**
- Presented to the **Ecuadorian Ministry of Tourism** as part of the tourism promotion initiative meant to increment number of foreign tourists in Ecuador by **500,000 per year** over the next five years.

Junior Programmer Intern

Robalino Law (Law Firm), Quito (Internship)

07/2024 – 08/2024
Quito, Ecuador

- Built **Python-based ETL** scripts to authenticate with and extract data from (Lemontech's) **TimeBilling REST API** (clients, matters, invoices, users) identifying underutilized fields, features, and data structures to inform database optimization recommendations.
- Audited the **firm's TimeBilling platform** usage, identifying **underutilized features and workflows**, and presented findings and recommendations to firm leadership to **improve efficiency** and capture additional billable value.

UI/UX Design Intern

GrupoMas, Quito (Internship)

06/2023 – 07/2023
Quito, Ecuador

- Designed and prototyped the full **front-end UI** for a parking solutions app using **Justinmind**, covering all **user flows** and **screen layouts** from concept to **clickable prototype**.

PROJECTS

KaraokeJam (*FastAPI, React, Whisper, Demucs, Librosa, Web Audio API, Supabase*)

11/2025

- Participated in McGill's CodeJam hackathon: engineered a **3-model real-time AI audio pipeline** (**Demucs vocal separation + Librosa YIN pitch analysis + Whisper lyric alignment**) achieving **<100ms end-to-end WebSocket latency**, built as a 2-person team in **48 hours**.
- Implemented **Web Audio API mic capture** with **base64 float32 streaming** and a **tone-based scoring engine**; **Supabase Postgres** with **RLS** and **object storage** for session state and **background audio jobs**.

Hotel Search Platform & AI Concierge

Freelance Fullstack developer

07/2025 – Present
Remote

- Built a production **full-stack hotel-search chatbot** serving **50+ hotels** across Ecuador's hospitality sector: **Next.js 14, TypeScript, Prisma ORM, PostgreSQL**; **4 RESTful API endpoints**.
- Integrated a **Mistral AI LLM** with **dynamic database context injection**, **NextAuth.js role-based access**, and an **admin dashboard** for hotel registration, approval, and payment state management.

Nutria App Programmer

React Native, TypeScript, Health API

01/2025 – 04/2025

- Built a **mobile app MVP** as part of an entrepreneurship class which was later presented in a pitch.
- The app delivered **personalized meal tracking** and **nutrition recommendations**, integrating **AI APIs** for tailored dietary guidance.

SKILLS

Programming & Software: Python, TypeScript, JavaScript, SQL, Java, C, OCaml, Bash, Assembly, Git, Linux, Node.js, REST APIs, WebSockets

AI & Machine Learning: Whisper, Demucs, Librosa, PyTorch, Scikit-Learn, NumPy, Pandas, RAG

Frontend & Backend: Next.js, React, FastAPI, Prisma ORM, PostgreSQL, Supabase, NextAuth.js, Tailwind CSS, Vercel
